Prsentation de l'diteurTensions between Siberia and Moscow are running high, but the sudden disappearance of leading top-tier Siberian politicians and oil executives sparks open outrage in the vast lands east of the Ural. Terrified that Siberia will sever their ties and deprive Russia of its most important oil source, Moscow turns to a new supplier in the South Atlantic: the Falkland Islands. In an undercover mission, they persuade Argentina to invade the islands again. In return for oil rights, Moscow's hunter-killer submarine, Viper 157, will take out the British aircraft carrier arriving to recapture the islands, leaving Argentina free to claim the 'malvinas.' The United States are furious at this act of international piracy - and the fact that their largest oil

giant owns the very same oil rights. Under the stern eye of Admiral Morgan, the navy SEALs bring in the legendary Commander Rick Hunter. Their mission: to hammer Argentina's military and free the Falklands.

His English brother-in-law and an SAS special forces team are trapped on East Falkland, on the run from an Argentine shoot-to-kill man-hunt, out of contact...Revue de presse "The new Frederick Forsyth" (Guardian) "Britain's answer to Tom Clancy" (Sarah
